The World Council of the Cedars Revolution
Representing the hopes and aspirations of many millions of Lebanese in Lebanon and throughout the Diaspora
www.cedarsrevolution.net - cedarsrevolution@gmail.com

The Director of the US Council for the Cedars Revolution issued the following statement

We, as Lebanese Americans do consider Hezbollah as a Terrorist Organization, which has taken the lives of many American lives since 1983. We also consider Hezbollah as a Terror group which has been involved in an alliance with the Syrian regime responsible for the occupation of our mother country Lebanon and for a series of Terror assassinations aimed at legislators, journalists, politicians, and military and security commanders.

We consider Hezbollah as responsible for the war against the Cedars Revolution and for violence against the Lebanese People. We wish to see this organization disarmed and the international terrorists within its ranks brought to justice.

We have been surprised and offended to see the head of the Lebanese cabinet which we have been supporting and politicians members of the March 14 Coalition expressing their political condolences to the leadership of Hezbollah for the death of international terrorist Imad Mughniyeh. While his Terror wars on the regional level and inside Lebanon are behind the violence he got involved with, and while his wars are not of Lebanon's business, he was also responsible for the campaign of violence against Lebanese citizens.

The Lebanese cabinet and March 14 have an explanation to provide to the public of the Cedars Revolution, to the Lebanese Diaspora and to the Lebanese American community. The US Council of the Cedars Revolution request a formal explanation about the rationale behind the act of solidarity with international terrorism practiced by the Lebanese cabinet and the March 14 Alliance.

Attorney John Hajjar
Director, US Council of the Cedars Revolution
