The Cedars Revolution supports prosecuting Omar Bashir in Darfur's Genocide and calls on Lebanon's Politicians to do the same.

The World Council for the Cedars Revolution (WCCR) supports the International Criminal Court in its warrant for the arrest of the head of the Sudan regime Omar al Bashir for his responsibility in the Darfur and Southern Sudan Genocides. The WCCR, representing the aspirations of millions of Lebanese around the world believe that International Law which will provide justice in the Hariri murder should also provide justice in the murder of 250,000 Black Africans in Darfur.

The WCCR reject the attempts by other regimes in the region to delay the prosecution of al Bashir and calls on the democracy forces in the Arab world and the Middle East to stand by the International Court on Darfur and on Lebanon. We cannot claim justice for the Lebanese under the Hariri Tribunal and deny it to civilians slaughtered by a regime ally to the Syrian and Iranian regimes.

The Cedars Revolution cannot stand with the fascist regime of Khartoum and opposed to the people of Sudan and Darfur. The WCCR calls on all Lebanese politicians who claim supporting the Cedars Revolution and the March 14 uprising to stand by the International Court and demand the prosecution of General Bashir, while the Haririr Tribunal is preparing for the prosecution of the Terrorists who murdered the former Prime Minister and many other politicians in Lebanon. If anything the Lebanese politicians and political parties opposed to the Syrian occupation and Terrorism should be the first ones to acclaim the decision to prosecute the architect of Genocide in Darfur.

The WCCR congratulates Prosecutor Ocambo for his courage.

Prosecutor Ocambo, a man of courage and integrity bringing justice to millions.
