On the disarming of Militias in Lebanon, i.e.: Hezbollah

## Statement

(Ret) Col Charbel Barakat, advisor of the WCCR on Anti Terrorism and International Security told CR News that "we do not see today any plan proposed by Lebanese politicians to disarm Hezbollah and have the Lebanese Army control all territories. All what we see is the so-called discussion of a 'defense strategy,' which in other words is to legitimize Hezbollah's control of Lebanon's national security"
