I just received a letter from Congresswoman Sue Myrick, Senior member of Intelligence committee and a Chairwoman of the Anti-Terrorism Caucus in the House of Representative.

Congresswoman Myrick issued this evening a letter to President Obama referencing " Hezbollah is now seeking to form a new cabinet in Lebanon... the situation in Lebanon, and the growing global power of Hezbollah, should be a great cause of concern to Americans."

She went on to say " We must not let Iran gain further influence in the Middle east".

Therefore, "Mr President, please show solidarity with the Lebanese People by rejecting any recognition of a Hezbollah government....."

I am forwarding a copy to you here attached.
