John Hajjar - WCCR Director from Washington DC

I strongly condemn the violence practiced by the military security units of the Lebanese army on peaceful protesters in the Kesruwan district in Lebanon. I urge the state department to ask the Lebanese army command to stop these units from being in contact with civilian protesters and investigate those responsible for violence against demonstrators. Lebanese Americans cannot and will not stand idle as Lebanese civilians, our people in Lebanon are beaten on the streets by rogue security elements in the Lebanese army that we taxpayer fund and help.
