WCCR Press Release - Letter to the UN Secretary General on Disarmament of Hezbollah

Monday 26th October 2020

H.E. Antonio Guterres

Secretary General United Nations

New York NY

Re-Your Call to Disarm Hezbollah

The World Council of the Cedars Revolution (WCCR) is delighted and deeply grateful for your declaration that Hezbollah is a terrorist organization which must be disarmed in order for Lebanon to be able to begin the process of rebuilding a modern society with medical, commercial, financial, educational, social and political services to the people of Lebanon.

The United Nations Security Council Resolution (UNSCR) 1559 which calls for the disarmament of all militias on Lebanese soil, including Hezbollah, has been proclaimed for more than 15 years and is yet to be implemented by the Security Council. Notwithstanding the presence of UNIFIL which by all considerations is no more than a toothless tiger. Its powerless existence has allowed the terrorist organization Hezbollah to grow stronger and more destructive by the day until it has arrived at the position of total control of the innocent people of Lebanon.

Your Excellency, The WCCR wishes to suggest that the solution for disarming the evil terrorist Hezbollah is in your hands. The burden of liberating Lebanon, a founding member of the United Nations, from the horrific recent history of the most evil atrocities upon the decent, honourable and unsuspecting citizens of Lebanon, rests exclusively upon the shoulders of the most powerful body of nations, the United Nations Security Council. A combined military capability comprising an army from the members of the Security Council, so strong that no terrorist organization can withstand will be the way to wrest power and control of Lebanon from Hezbollah.

It is absolutely crucial that no democratic elections should take place before full implementation of UNSCR 1559. Otherwise we will certainly end up in the same position very quickly.

Lebanon is a multi-cultural Paradise in the Middle East which should be liberated and used as a role model, not driven into the basement of social values for the benefit of thieves and evil terrorists.

For and on behalf of the World Council of the Cedars Revolution

Joesph P Baini

President, WCCR
