Regarding the attacks on the Spanish peacekeeping troops in Lebanon:

June 25, 2007

"The European Commission condemns in the strongest terms the heinous attack perpetrated against Spanish peacekeeping troops in Lebanon. Our thoughts are with the families and friends of the victims of this attack, and with the Spanish people. Those responsible should be swiftly brought to justice.

The European Commission calls on all Lebanon's politicians to unite in order to face the serious security challenges that Lebanon is currently facing, and to take urgent measures to identify and counter those who would undermine efforts to implement UN Security Council Resolution 1701 and bring stability and security to Lebanon's long-suffering population."
